## Shift salt & pepper mill

### Northern x Kim Thomé at DS Collab 2025

As part of Designers' Saturday 2025 in Oslo, Northern is proud to unveil a new collaboration in the DS Collab exhibition: a salt and pepper mill designed by Norwegian-born, London-based designer Kim Thomé.

DS Collab is a unique initiative pairing Norwegian manufacturers with emerging and established designers to explore new ideas and push the boundaries of design. For Northern, this resulted in a sculptural and playful kitchen accessory that reflects both Thomé's architectural approach and Northern's passion for functional beauty.

Crafted from solid oak with striking contrasting finishes, the mills are as much objects of design as everyday tools—adding a bold graphic expression to the dining table.

The project is part of the wider DS Collab exhibition, featuring eight partnerships between Norwegian brands and designers, all showcased at Myrens Verksted during Designers' Saturday, September 12–14, 2025.
